As we make plans for Fall 2020, we have been asked what are the minimum expectations for computer and technical ability to be able to complete academic work at Bethany College either on campus or on-line. Although, we do not endorse or require any specific company, the minimum expectations for computer and technical support have been outlined.

If you have concerns regarding your present computer's ability to provide you your best chance at success, please contact Malachi Anthony at Manthony@bethanywv.edu or the Helpdesk at hdesk@bethanywv.edu.
